# Images & graphics 1/2: raster images

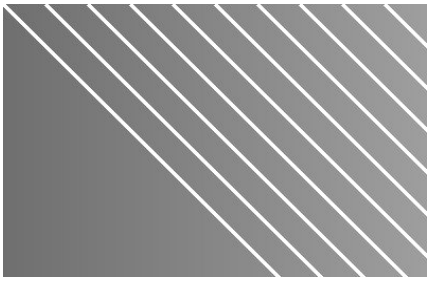

Colour spaces, alpha, bit depths, scaling, transforms and clipping.

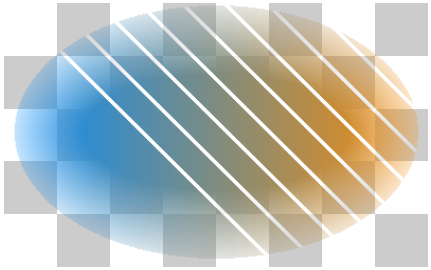

RGB JPEG (DCTDecode)

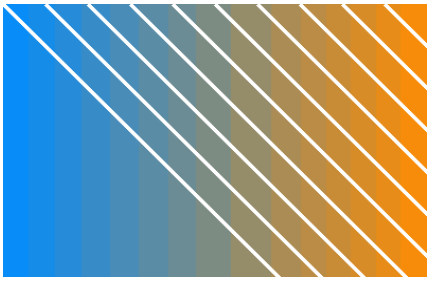

CMYK JPEG (DeviceCMYK, Adobe inverted)

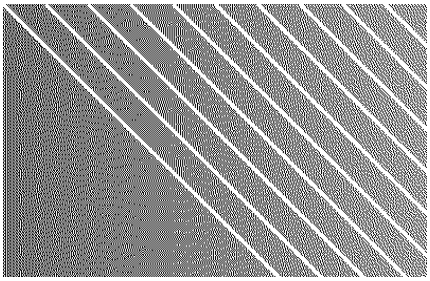

Grayscale JPEG

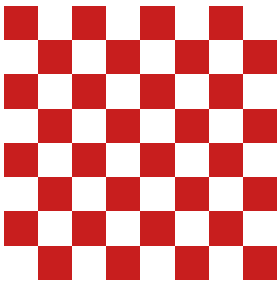

PNG with graded alpha (SMask) over checker

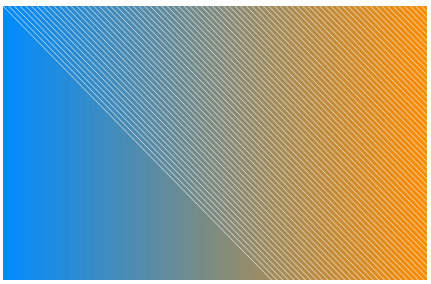

16-colour palette PNG (Indexed)

1-bit dithered (bilevel)

8x8 px scaled up (interpolation)

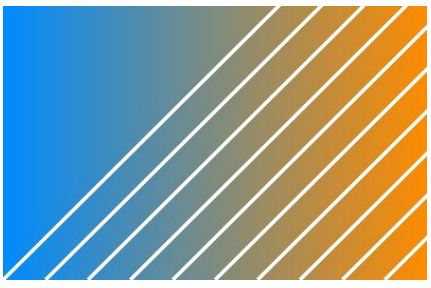

3000x1900 px scaled down

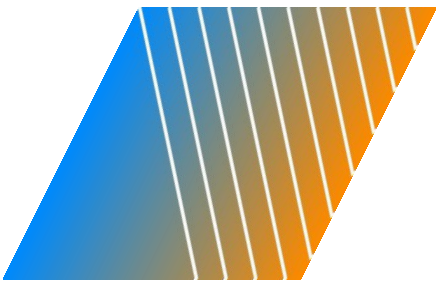

Image clipped by a circular path

Rotated 25 degrees

Vertically flipped (negative scale)

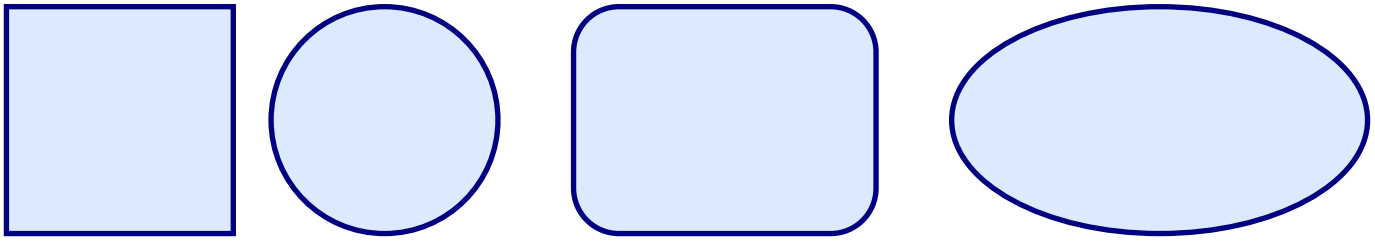

Skewed

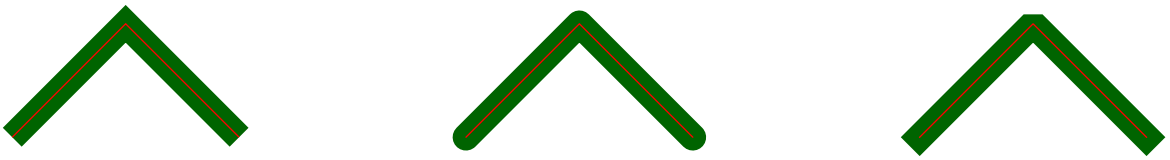

All images are generated test patterns; diagonal white stripes make resampling artefacts visible.

# Images & graphics 2/2: vector graphics

Paths, stroking, fill rules, transparency, gradients, CMYK and spot colours.

Rectangle, circle, rounded rectangle, ellipse

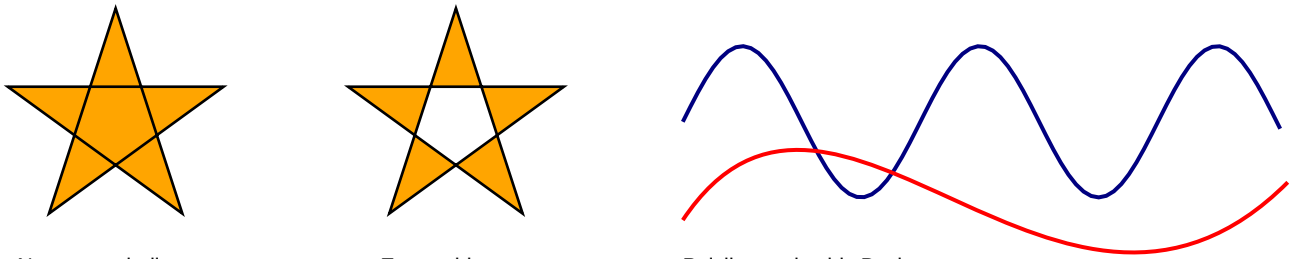

butt cap / miter join

round cap / round join

square cap / bevel join

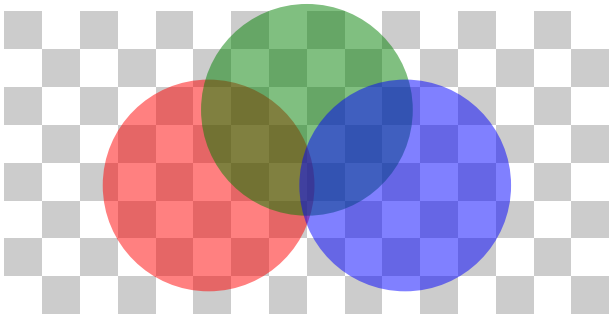

Dash patterns [6 3], [1 3], [12 4 2 4]

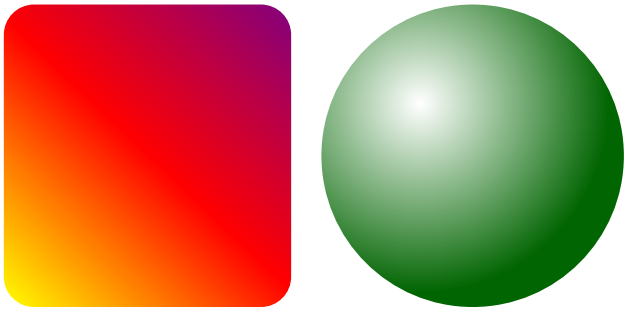

Non-zero winding

Even-odd

Polyline and cubic Bezier curve

Constant alpha 0.5 (ExtGState ca)

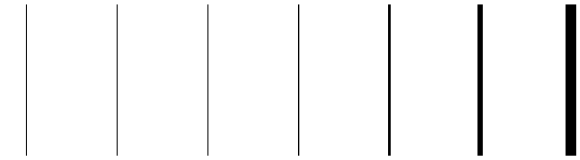

Axial (3 stops) and radial shading

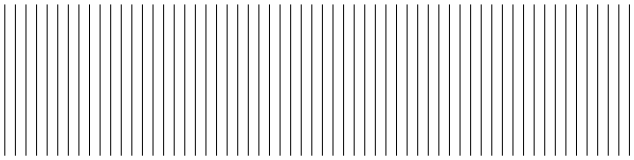

C M Y K Rich black Spot PANTONE 185 C Spot 50% tint

DeviceCMYK fills and a Separation (spot) colour with tint

Line widths (0 = thinnest device line)

0.1pt hairline grid (moire / zoom test)
